Analysis of Blood Pressure
levels for different factors
of adults
Quantile vs OLS Regression Approach

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Quantile vs OLS Regression Approach | The prevalence pattern of hypertension (HTN) in developing countries is different from that in the developed countries. Rising trend of high prevalence of hypertension has been increased last few decades. Various factors might have contributed to this rising trend like, age, BMI, lack of physical activity, diet, and smoking etc. In practical situation levels of blood pressure are differently related to each covariate. In other word...
