By Tom Roeper

MIT Press Ltd, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book. Exploring the creativity of mind through children's language: how the tiniest utterances can illustrate the simple but abstract principles behind modern grammar -- and reveal the innate structures of the mind. The tiniest utterances, says Roeper, reflect the whole mind and engage the child's free will and sense of dignity. He offers numerous and novel explorations -- many at the cutting edge of current work -- that anyone can try, even in conversation around the dinner table....
